Good morning I want to say that government schools are forcing students to come to school for giving weekly test or preboards it should not be offline because there are sooo many students in class and no sop is followed by schools we can put life of our child in risk it should be taken online as no order is there that school will force kids to come school and school is asking it's compulsory to come school and forcing to bring concent letter to come to school that parents should write we are agree to send our child this should not be done .

Thanks
