Dear Sir/ Madam,

NEP 2020 prioritizes the integration of cyber safety education into educational programs, aiming to enhance awareness and provide students with the necessary digital literacy skills for secure internet navigation. In this age of unprecedented digital evolution, spreading awareness regarding Cyber Parenting is imperative for our technology-driven society. Cyber Parenting promotes a sustainable and harmonious coexistence between humanity and technology, ensuring a brighter and more balanced future.

Cyber parenting training is of paramount importance in our digital age, serving as a vital tool to safeguard children's well-being in the online realm. It empowers parents with the knowledge and skills needed to navigate the complexities of the digital world, ensuring the safety of their children from various online threats such as cyberbullying, predators, and inappropriate content. By fostering open communication, setting boundaries, and promoting responsible online behavior, cyber parenting training helps create a secure and positive online environment for children. Moreover, it enables parents to adapt to the rapidly evolving digital landscape, staying ahead of emerging challenges and technologies. In essence, cyber parenting training is a proactive approach that equips parents to guide their children through the digital domain, fostering a healthy and balanced relationship with technology.
